Bulletin 89:

We have received two positive responses from the City on the issue of automation:

Firstly we have been invited to engage with the MMC Transport on automation. We will be convening a meeting with various security companies to compile various automated security models to present to the City. We will be contacting all contributors to invite your security company to attend such meeting.

Secondly we have received a reply to our request for more information on the City's Explanatory Notes and will be providing a detailed report back to all contributors in this regard.

As both responses are positive and are a direct result of our engaging with the City a big thank you to those who have contributed.

Best regards
