

Woodrock Domestic Watch August 2017

Hi All

Our Lesson: **“Child Protection and Woman Abuse – Related Crime Prevention”**

Woman and child abuse horrors are so prolific we HAVE to know what to do and where to turn. Then some call it a child war. There are numerous secure facilities for parents the youth and children that can protect them and all details of where to turn for help will be addressed. If we don't know what we have to do or where to turn to get help we are not going to see an end to these horrors. Can anyone ever recover from woman or children being murdered, mutilated, kidnapped and raped?

Specialist speakers will cover:

- What symptoms we need to look out for and tell-tale signs of potential horrors
- What recourse do we have when we suspect potential crime or who could be committing the crimes
- The processes of reporting and getting the help needed to avoid more carnage or other shocking woman, youth and child crimes
- When do “they” know that “they” need help and which is the safest place to get the best advice or protection

So many of the domestics become the surrogate mothers to the youth/children, they must have agreed strategies with employers or parents to work collectively towards safe guarding youth and children. Let's stop woman from feeling HELPLESS! Factual hard hitting heart rendering (and good news end result) stories will be shared to hit this topic home and make prevention or places of safety available effective and sustainable.

Thank you to those who receive this email for forwarding it to your community members, family and friends to encourage more good people to DO SOMETHING to stop the crime war!

Sincerely

Pens
