

# DUKE ATTORNEYS

---

15 June 2018

**Bulletin 112:**

## **GATED COMMUNITY AND SECTIONAL TITLE STAKEHOLDERS FORUM**

We have been invited by Johannesburg Water to attend a Gated Community and Sectional Title Stakeholders Forum to address water and sanitation service delivery issues on 21 June 2018.

For all clients on retainer please advise us if there any issues you would like us to raise regarding water and sanitation at that forum.

We will in any event report back in an “A” bulletin in due course.

## **NEW POLICY ON ROAD CLOSURES**

Note further that we are advised that the new policy for road closures is in the final stages of consideration and should be passed by the Council shortly. This may be delayed due to the extensive and convoluted process that must be followed before the policy is finally approved. Initial indications are that some form of automation will be allowed: full details will only become available once the policy is released.

# TRAFFIC CALMING MEASURES

Yesterday I attended a presentation by the City on traffic calming measures, including the use of speed humps and traffic circles.

I will provide a detailed report on that meeting in my next A Bulletin to those on retainer.

Regards

GARY DUKE
